EDUCATION

• Bachelor of Technology in Computer Science & Engineering | 2019-2023 | Siksha 'O' Anusandhan | Graduated | Cgpa: 9.04 | 2019-2023
• 12th | S R Public Senior Sec. School | CBSE | 77.4% | 2018
• 10th | Holy Cross Hr. Sec. School | NBSE | 96.5% | 2016

EXPERIENCE (COGNIZANT) :

• Here I worked as a React Developer. I was supposed to make a project with 2 rest api.
• I developed the Burgeria project mentioned below in the project section.
• The 1st Rest api is the menu where the admin can perform CRUD operation & 2nd Rest api is the Cart where the user can perform CRUD operations.

PROJECTS:

SWIGGY CLONE:

• Here I made a clone of Swiggy with some basic functionalities like Home, Signup, Login, Cart.
• I made arrays that I used for restaurants, menu data using data from Swiggy's live api.
• Tech Stack: React, Tailwind, HTML, Firebase.
• Github Link:
• Live Demo Link:

NETFLIX CLONE:

• Here I made a clone of Netflix with some basic functionalities like Home, Signup, Login, Watchlist.
• I used TMDB's api to get data.
• Tech Stack: React, Tailwind, HTML, Firebase.
• Github Link:
• Live Demo Link:

YOUTUBE CLONE:

• Here I made a clone of Youtube with some basic functionalities like Home, Signup, Login, Watch Page.
• I used Youtube's api to get data.
• Concepts Used: Shimmer UI, Router, hooks, Higher Order Components, Chunking, Debouncing.
• Tech Stack: React, Tailwind, HTML, Firebase.
• Github Link:
• Live Demo Link:

TECHNICAL SKILLS:

• React, Tailwind, Html, Firebase, Vite, parcel.
